Hall 11 and Portalhaus

Portalhaus – the location for events

Building a vision.
Hall 12

messe frankfurt
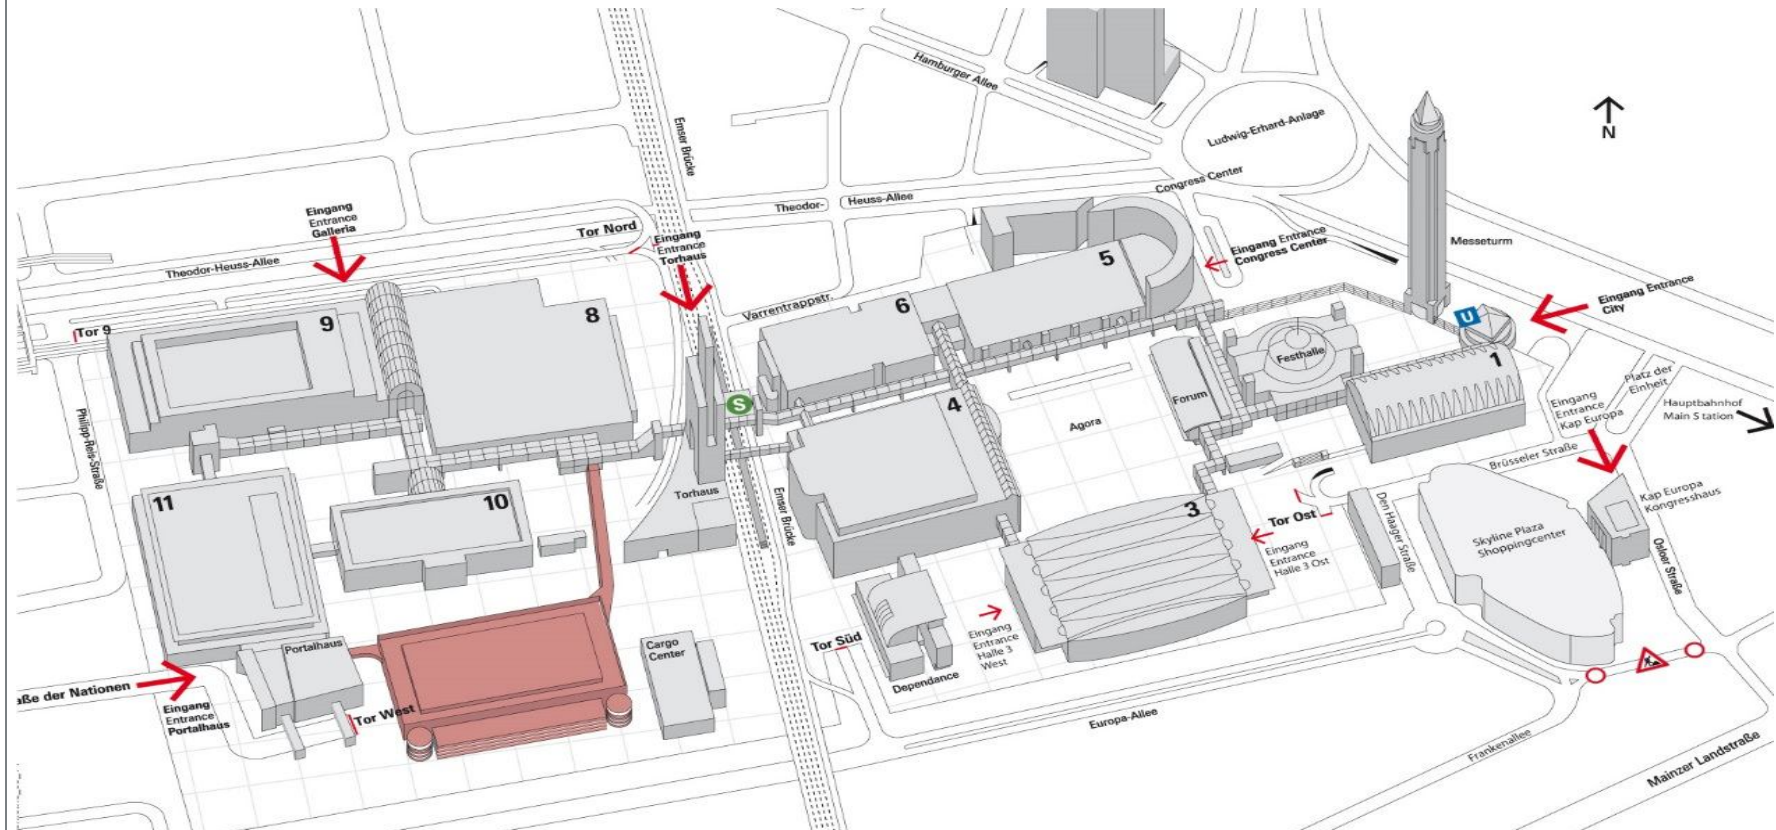

Hall 12 in the south-western part of the exhibition centre.
Construction period: 2016 – 2018

The two-storey hall designed by kadawittfeldarchitektur GmbH will be inaugurated in time for Automechanika 2018. The building will be approx. 248 metres long, 118 metres wide and approximately 30 metres high. Exhibition space will be around 33,600 gross square metres in total.
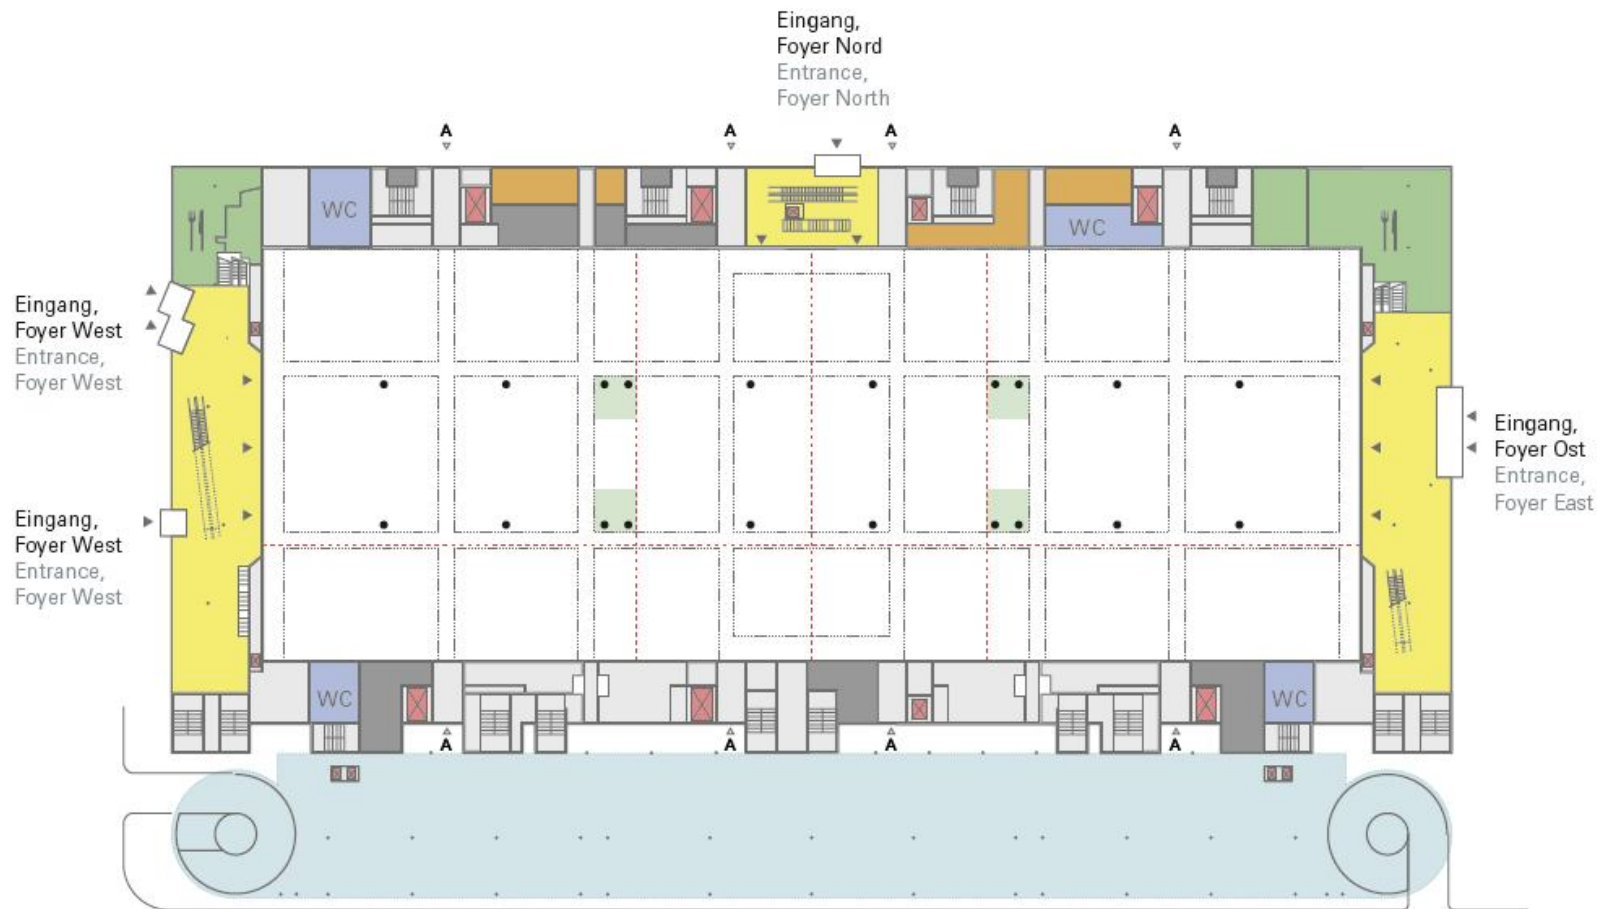

Plans and layouts
Easy divisibility and spaces that can be utilized independently of one another: functionality and flexibility are the characteristic features of both exhibition levels in hall 12. A roof-mounted photovoltaic system supplies one-fifth of the building's base load.
